

Multi GNSS Working Group Members

[updated 2013 – source: 2013 Component Report]

Chair: Oliver Montenbruck, DLR/GSOC, Germany

Chair Term Expires:

Membership

#	Name	Institution	Tasks/Activities
1	Claude Boucher	OBSPM	
2	Rolf Dach	AIUB	- Galileo precise orbit and clock product - SP3 format extension (SP3d)
3	Yamin Dang	CASM	
4	Heinz Habrich	BKG	
5	Larry Hothem	USGS	
6	Satoshi Kogure	JAXA	- QZSS precise orbit and clock product - QZSS mission interface - MGEX stations provider (MGM-net)
7	Richard Langley	UNB	- Media and conference representation - GNSS constellation monitoring - MGEX stations host/provider (UNB*)
8	Hans v.d. Marel	TUD	
9	Oliver Montenbruck	DLR	- Chair MGWG, MGEX coordination, reporting - Coordination with other WGs (RINEX, antenna, bias, orbit) - MGEX network control, consolidation and expansion - Multi-GNSS broadcast ephemeris product - Multi-GNSS data and product analysis (BeiDou, Galileo, IRNSS) - Development of multi-GNSS DCB product (in progress) - MGEX stations provider (CONGO)
10	Felix Perosanz	CNES	- Galileo precise orbit and clock product - MGEX stations provider (REGINA)
11	Chris Rizos	UNSW	- MGEX representation at external institutions (ICG, IGMA,...) and conferences/workshops - MGEX stations host
12	Tim Springer	ESOC	- MGEX stations provider - Multi-GNSS data processing (selected case studies)
13	Rene Warnant	ULG	
14	Robert Weber	TUW	
15	Pascal Willis	IPGP	
16	Ahmed El-Mowafy	CUT	- MGEX station provider (CUT0) - Research on quality control methods
17	Shaowei Han	-	
18	Peter Steigenberger	TUM/IAPG	- Galileo and QZSS precise orbit and clock product

			- Multi-GNSS broadcast ephemeris product
